

Mandriva 2012.0 roadmap

Written by rugyada
Wednesday, 09 May 2012 17:20

A roadmap for Mandriva Linux 2012 (assumed version name), the next major Mandriva release, has been published in [Mandriva wiki](#)

Specifications will be based on proposed features http://wiki.mandriva.com/en/2012.0_specs_proposal and Ideas [http://wiki.mandriva.com/en/Ideas Mandriva 2012.0](http://wiki.mandriva.com/en/Ideas_Mandriva_2012.0)

Contributions for those pages are welcome!

- A Technology Preview is planned for 31/05/2012. A first Alpha release should come in June.

- Per Øyvind Karlsen (aka proyvind) will be acting as de-facto project leader for the course of Mandriva Linux 2012 development, with Bernhard Rosenkränzer (aka bero) & Matthew Dawkins (aka mdawkins) as release managers of.

It confirms what we told you in advance in [News and rumours about Mandriva after the 30 April GA](#)

Mandriva 2012.0 roadmap
