Link per i torrent e gli ftp/http sui mirror internazionali da cui poter scaricare tutte le versioni Mandriva Free DVD e Mandriva One CD della nuovissima Mandriva Linux 2009 Spring (2009.1)

I torrents, destinati inizialmente agli early seeder, ma erano anche già scaricabili da qualche giorno, reperibili con una semplicissima ricerca su <http://www.google.com>

Scompattare il file compresso contenente tutti i 9 torrent delle edizioni "Free"

http://mib.pianetalinux.org/2009.1/torrents/2009.1_free_torrents.tar.bz2

Usate il vostro torrent client preferito, ma qualsiasi esso sia, si raccomanda di:

Attivare il parametro **DHT** per favorire la buona redistribuzione dei torrent a tutti.
