

Converseen 0.4.7

Written by GvM

Monday, 19 December 2011 12:37

Converseen 0.4.7 for Mandriva 2010.2 and 2011.0.

Converseen is an open source project written in C++ with the powerful Qt4 and Magick++ libraries. It supports more than 100 image formats: DPX, EXR, GIF, JPEG, JPEG-2000, PDF, PhotoCD, PNG, Postscript, SVG, and TIFF. You can convert an unlimited number of images and / or create thumbnails to any of them.

It allows you to process more than one image with a mouse click! Converseen is very simple: it features a very simple user interface without strange options. You can also resize and compress images for your web pages.
