**Dune Legacy** is an effort by a handful of developers to revitalize the first-ever real-time strategy

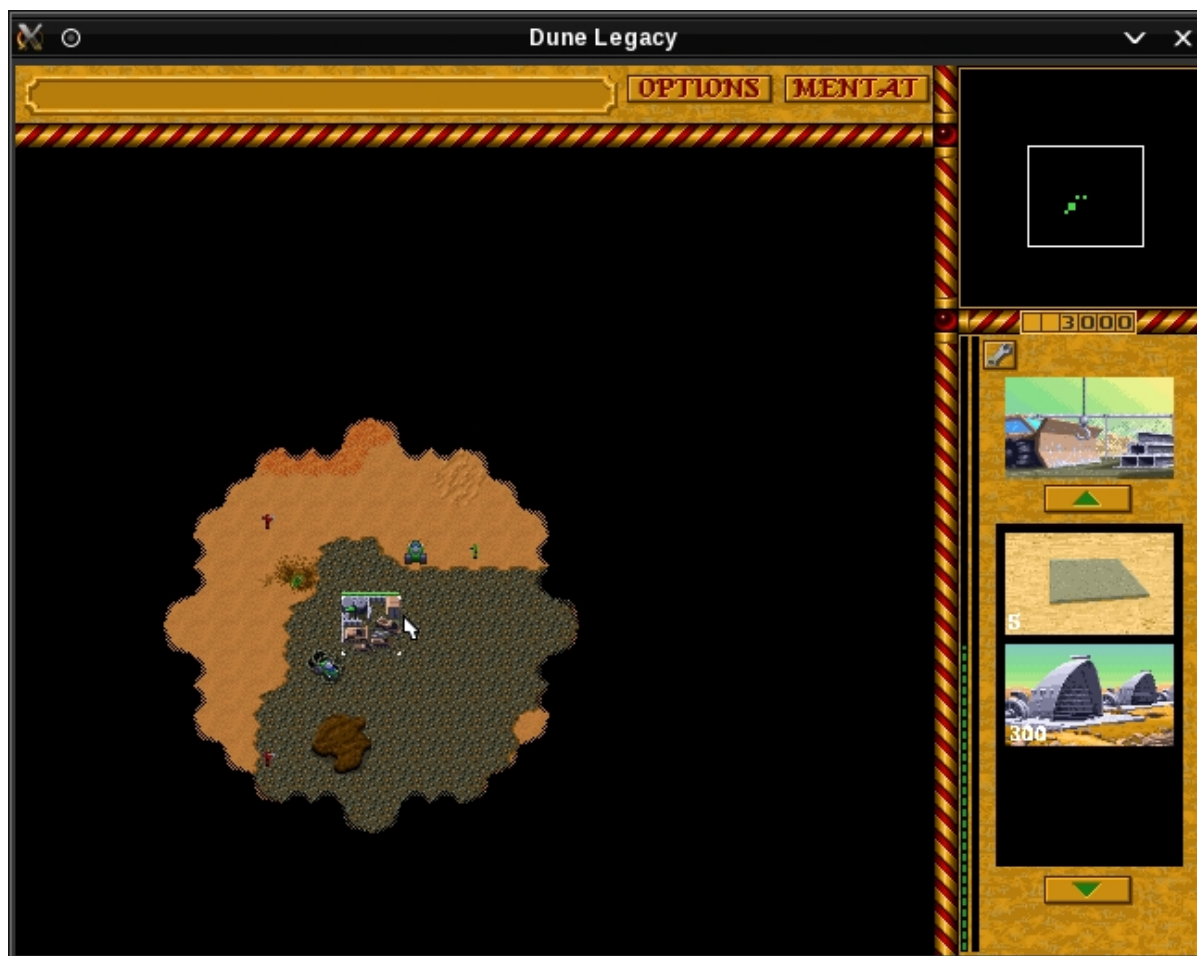

game                    **Dune 2.** The original game was the basis for the hugely successful Command and Conquer series, and the gameplay has been replicated and extended to a wide variety of storylines and series.

Lead one of three interplanetary houses, Atreides, Harkonnen or Ordos, in an attempt to harvest the largest amount of spice from the sand dunes. Exchange your spice stockpiles for credits through refinement and build an army capable of thwarting attempts of the other houses to stop your harvesting!

Enjoy the classic game running on an open source engine.
