

**LianLianKan 2.3** for Mandriva Linux 2010.1

Game for GNU/Linux.

### **Homepage:**

<http://sourceforge.net/projects/llk-linux/>

LianLianKan is a recreation game.

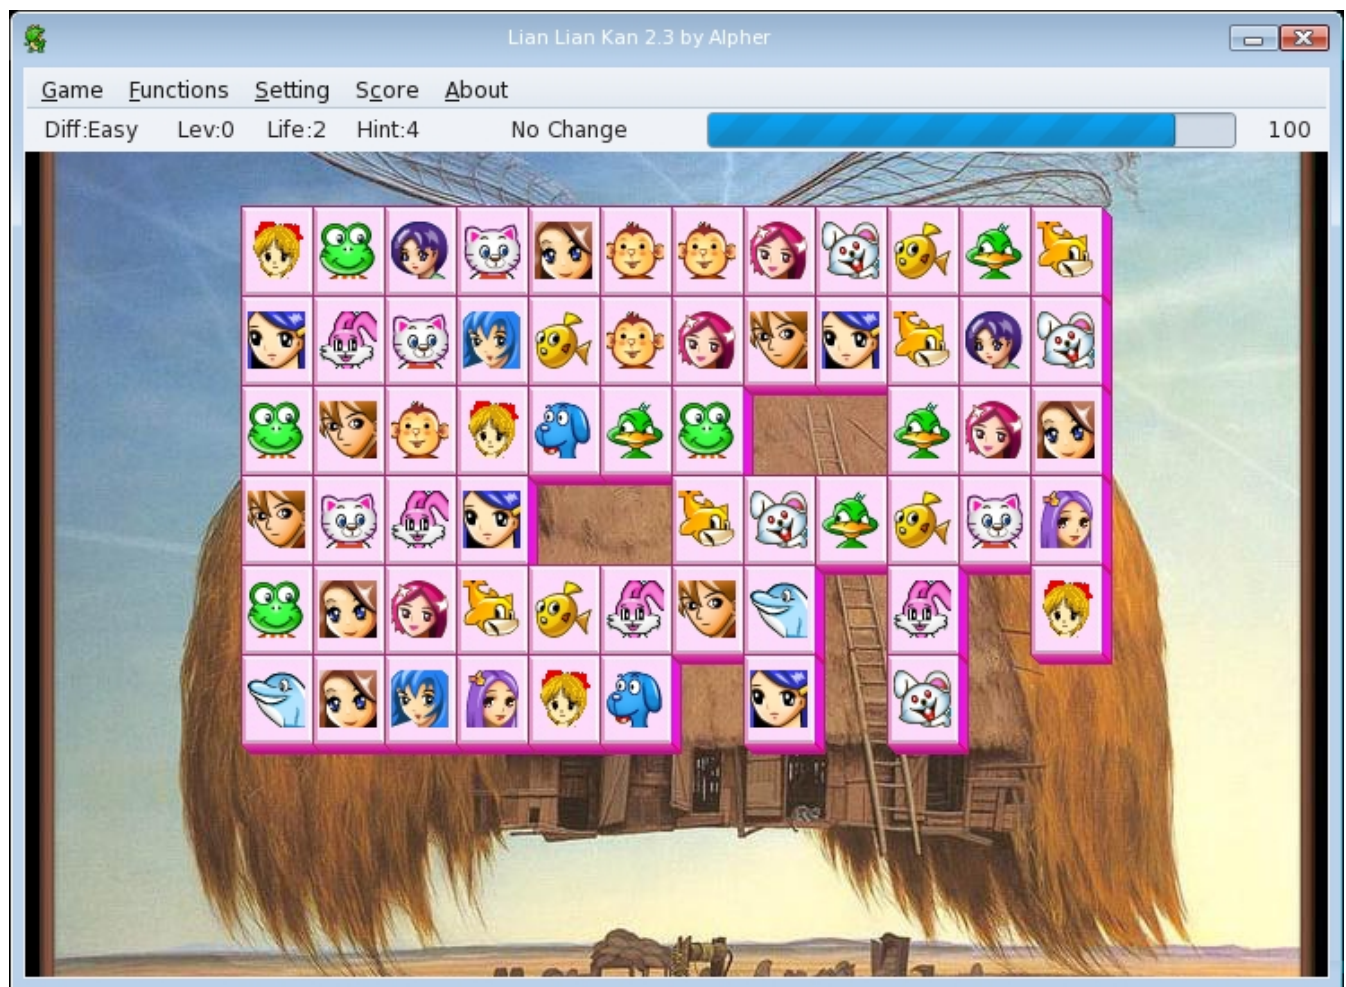

Game playing is very simple, first you are required to choose a pair of same pattern links, but the path of links appeared can not exceed twice turns, after links keep away from other patterns. Only can enter next one when you fulfill task.

The difficulty of game can be divided into three levels.

The game has rules very similar to Shisen-Sho:
