

EYaSDP 0.9.0 for Mandriva 2010.2 and 2011.0.

eYaSDP is a plasmoid that allows to set a number of system buttons in your panel or desktop for comfortable and quick access.

It features:

- Actions: Shut-down, Reboot, Log-out, Lock screen, Hibernate, Suspend, Switch user and Turn-off screen.
- Customizable number of buttons.
- Contextual menu actions.
- Customizable icons.
- It scales to fit your panel size.
- Multilingual support.
