

# Gsopcast 0.4.0

---

## Gsopcast 0.4.0 per Mandriva Linux 2010.0

A GTK based GUI front-end for p2p TV sopcast.

Software per lo streaming televisivo, per vedere la TV attraverso il Web.

### Sito Web:

<http://code.google.com/p/gsopcast/>

### Screenshot:

The screenshot displays the Gsopcast 0.4.0 application window. The main interface features a menu bar with 'sopcast', 'config', and 'about'. Below is a search bar and an 'Expand' button. A list of channels is shown, with 'India vs South Africa - CricketCable.com Live 3' selected. A detailed description for this channel is visible: 'Description: India vs South Africa - CricketCable.com Live 3', 'Schedule: 24x7', and 'Email: cricketcable.com@gmail.com'. An MPlayer window is overlaid on the interface, showing a live broadcast of a cricket match. The MPlayer window includes a progress bar at 65% and playback controls (Play, Stop, Exit, Record). The status bar at the bottom of the MPlayer window shows '87%, ur=18k, dr= 49k, us= 9k, ds= 14k, peers=43'. A blue watermark is present at the bottom of the screenshot.
