

**SopCast Player 0.3.3** for Mandriva 2010.0 and 2009.1  
32 & 64 bit

SopCast Player is designed to be an easy to use Linux GUI front-end for the p2p streaming technology developed by SopCast.

Per gli italiani: Funziona anche sotto rete FastWeb

### **Request zone:**

Here we accomplish [the wish](#) of our user *ValerioR* on MIB Forum

SopCast Player features an integrated video player, a channel guide, and bookmarks. Once SopCast Player is installed it simply "just works" with no required configuration.
